Alternative Link: <https://codeforces.com/contests/656453>

[The alternative link will **only work** after you have successfully registered using the first link.]

Deadline: Dec 14, 2025 2:00 PM

No submission can be considered after the deadline ends.

Learning Outcome:

By the end of this lab, students will have a better understanding of how to use BFS and DFS to solve more advanced problems. They will learn how to check if a graph is bipartite, how to find a topological order of a graph, and solve other problems that use these techniques. This lab will help students think more clearly about how graphs work and how to turn those ideas into working code.
